

**WATER & NATURAL RESOURCES NEWS
FOR GROWERS
IN THE MADERA COUNTY GSAs**

DECEMBER 2023

MEASUREMENT

2024 Measurement Method

If you would like to change your measurement method to Land IQ or to Irrigate, now is the time! Forms will be mailed out within the next week to allow you to change your measurement method for 2024. You can also contact your Water Resources Specialist to make changes.

The deadline to submit these requests is **January 19, 2024**.

If no request is received by the deadline, your measurement method will remain the same. If you wish to keep your measurement method, no further action will be needed. Please keep an

eye out for your forms! To learn more about the measurement methods, please visit our [Measurement](#) webpage.

For questions, please contact your Water Resources Specialist or contact us at (559) 662-8015 or email ETmeasurement@maderacounty.com

MULTIBENEFIT LAND REPURPOSING PROGRAM

Input from growers and residents is important to create a localized plan for the Multibenefit Land Repurposing Program (MLRP) in Madera County.

MLRP Madera is seeking public input about the types of ag land repurposing projects that make sense and are desirable for our region. This input is important to help define the types of projects that will be eligible for MLRP funding as well as the co-benefits that will be created for the community. We invite you to contribute your perspective by completing a short [survey](#).

Visit our [MLRP](#) webpage for more resources!

RECHARGE

Don't forget to fill out the [Recharge Form](#) if you diverted water in 2023 with executive order water or purchased water.

Once the Madera County Board of Supervisors finalizes the recharge credit policy and potential credits, we will require an official report from each grower, accompanied by the necessary documentation.

Thank you for your cooperation in this important initiative!

DOMESTIC WELL MITIGATION

The Chowchilla Subbasin offers a Domestic Well Mitigation Program for domestic wells in the Chowchilla Subbasin.

If your domestic well goes dry, please call the program administrator at Chowchilla Water District at (559) 665-3747.

HAPPY HOLIDAYS!

If you have any questions, feel free to contact us at (559) 662-8015, [schedule an appointment](#) or explore our online resources at maderacountywater.com.
