

## WATER & NATURAL RESOURCES NEWS

### MADERA SUBBASIN GROUNDWATER SUSTAINABILITY PLANS

---

#### MADERA SUBBASIN GSPs APPROVED

Today, the California Department of Water Resources (DWR) announced the approval of the Madera Subbasin Groundwater Sustainability Plans (GSPs). These plans were revised and submitted to DWR in March 2023. These plans represent a major milestone in describing the basin, setting sustainable management criteria and outlining projects and management actions towards sustainability. With approved plans, we will continue implementations of projects and management actions towards sustainability.

Congratulations to all of the thousands of individuals who participated in this collaborative and iterative process in Madera County!
