Minutes

Minutes from the Board Meeting February 12, 2026 were reviewed. Director Danielle Harris made a motion to approve the minutes, and Brandon Spain seconded. A roll call vote was taken and the motion passed unanimously.

Subbasin Report – Groundwater Demand Management Programs and Subsidence Mitigation Measures

Sarah Woolf stated that Dirk Vlot attended the grower advisory group meeting where John Davids and Bernadette Boyle presented the Groundwater Demand Management Program to that group, and Dirk felt it would be beneficial for this board to also listen to their presentation. John Davids from Davids Engineering and Bernadette Boyle from Luhdorff & Scalmanini provided a PowerPoint presentation that covered the current voluntary and mandatory measures already in place, future additional mandatory measures, subsidence mitigation triggers, and the timeline for when steps are to proceed. After discussion, Brandon Spain made a motion to adopt the Resolution 01-2026, Chowchilla Subbasin Groundwater Demand Management Programs and Subsidence Mitigation Measures as written, Danielle Harris seconded. A roll call vote was taken and the motion passed unanimously.

Other Business

Chase Hurley shared that we have been collected good pumping data from our new annexed acres and all that pumping data for 2025 has been turned over to Summers Engineering and added collectively to our existing data. Our mitigation agreement with exchange contractors is now over and Chase plans to finalize a 2025 report that includes positive groundwater level details.

The Delta Mendota Subbasin has learned that the State Water Board staff is recommending that Delta Mendota goes back to DWR. If all goes as planned, they'll take action at the State Board meeting in April and send them back to the DWR.

Sarah Woolf stated that the diversions that are being funded by grant funds are underway. Sarah added that the Menifee diversion is not moving forward. The County is finding a place to reallocate those funds to a project within the basin. Sarah added that she would send pictures to the group from the completed Aliso Water District diversion project.

Don Wright asked if we are in a position to do any banking. Lucas Avila noted that this topic was not on the agenda, but could provide a brief answer, saying that it is something that has been considered, but haven't come to any conclusions but there could be potential in the future.

Lucas Avila suggested moving meeting times to a time earlier in the day rather than afternoon meetings, possibly meeting at 10:00 a.m. instead of 2:00 p.m.

Adjournment

President Avila adjourned the meeting at 3:10 p.m.
