Subbasin Report – Discussion of development of Rules and Regulations for Lower Aquifer Pumping

Sarah Woolf reminded the group of past discussions regarding wells that are in the Triangle T GSA, but are owned and used by landowners outside of the Triangle T GSA. Sarah stated that she and Chase Hurley were working to prepare policies that would be in line with terms of the mitigation agreement and would present a draft policy to this group later.

Chase updated the board that Triangle T Water District is in the process of negotiating new operating agreements with the San Joaquin River Exchange Contractors and San

Luis Canal Company and CCID, and if we're able to get those negotiated, that will allow us to utilize the Poso siphon and start delivering water.

Chase shared that the Delta-Mendota (DM) subbasin, which the Exchange Contractors are in, were successful being returned to DWR for implementation of their Single Groundwater Sustainability Plan (GSP). Chase added that the DM subbasin will continue to work under the terms and conditions of their GSP as drafted and that it could take DWR a year or so to approve the new GSP.
